

Since 1965, Vollmer has been recognized as a leader within the Industrial, Commercial, and Institutional (ICI) Construction and Service sectors of Windsor-Essex & Kent County's. We have demonstrated our diversified capabilities in Mechanical, Electrical, High Voltage Testing, HVAC, Millwright Rigging and Data Communication solutions.

Electrical Field Service Technologist

As a result of recent growth, Vollmer is looking to hire a Field Service Technologist for our Electrical Technical Services Team in order to service current customers and build new partnerships. Interested applicants should possess a background in testing, commissioning and troubleshooting of High to Low voltage systems. In addition, they should have experience with various manufacturers' equipment, engineering software, various safety protocols and be able to provide pro-active customer service. The ideal candidate will have a proven track record within the ICI sector, along with a relevant educational background. A College or University Degree in Electrical Technology or a related field is considered an asset.

If you're ready for an exciting and challenging opportunity that leads to career advancement, then please forward your resume to:

Vollmer Inc.
