

Since 1965, Vollmer has been recognized as a leader within the Service and Industrial, Commercial, and Institutional (ICI) Construction sectors of Windsor-Essex & Kent County's. We have demonstrated our diversified capabilities in dealing with Mechanical Piping, HVAC, Millwright Rigging, Electrical, High Voltage Testing, and Data Communication solutions.

Construction Design Technologist – BIM Operator

Vollmer's Construction Team is looking to add a Construction Design Technologist with experience in 3D Building Information Modeling of piping, sheet metal, structural steel, electrical, and other areas of construction projects. The ideal candidate will have experience with AutoCad, Revit, SolidWorks, Catia and any other 3D modeling software. They must also have the ability to create detailed drawings into the 3D model, specifically relating to piping, sheet metal, structural steel, and electrical. Candidates should possess strong people and must have the ability to interact and network with customers. Construction related design experience would be considered an asset.

If you're ready for an exciting and challenging opportunity that leads to career advancement, then please forward your resume to:
